

This form required information unavailable to me to file comments regarding unsolicited telephone calls. I am hearing impaired and physically disabled; prior to the law banning these telemarketing calls, I received 10-12 calls weekly and now I receive NONE. I have Caller ID on my phone line and these people have blocked this information from me so I cannot call and complain about receiving their calls or about the rudeness of the callers who refuse to identify themselves or hang up when having to repeat remarks due to my hearing loss. It has been wonderful not to be bothered day after day with the harrassing phone calls. Please do not lower the standards or do away with the present law that controls these people. Thank you
